Turkish
English
German

About Me

I call myself a remote working enthusiast and believe that someday most of the people will work on some top of a mountain or in the middle of forest. 🌲
I can consider myself as a web developer at the moment but I've been coding since I was 12 so I can adapt to any language. Right now my favorite is the MERN Stack though. I think coding is the best way to create something and it has a power which allows you to change the world. 🌍

Experience

Turkuvaz Media 2021-2022

Frontend Developer

I have worked on many websites that were platforms of the media company some of them were; sabah.com.tr, atv.com.tr, fotomac.com.tr etc.

Robotistan 2020 - 2021

Corporate Sales Manager - FrontEnd Developer

I have made sales to corporate firms and I have prepared html-css templates for campaigns and e-mailing and other marketing designs.

Education

2021-Present *Anadolu University* Masters of Measurement and Data Analysis

2014-2018 *Yeditepe University* Computer and Educational Technologies
